

Notice Regarding Transparency in Coverage Regulation and Consolidated Appropriations Act

Transparency in Coverage (TIC) regulations require U.S. health insurers and group health plans such as the Modine Group Health Plan to create machine readable files (MRFs) that contain the negotiated rates for in-network providers and allowed amounts derived from historical claims for out-of-network providers and make those files publicly available beginning July 1, 2022.

A machine-readable file is a digital representation of data or information in a file that can be imported or read by a computer system for further processing without human intervention.

These files follow the Centers for Medicare & Medicaid Services (CMS) defined layout and are in the CMS approved format (JSON) and are not meant for a consumer-friendly search of rates, benefits, or cost sharing. ***Please refer to www.anthem.com, member resources, for consumer-friendly information.***

Beginning July 1, Anthem will publish and maintain MRFs for the Modine Group Health Plan. These files will be published on anthem.com and will be updated on the first day of each month.

The link, anthem.com/machine-readable-file/search, will be activated on July 1 and will allow you to search for your files using Modine Employer Identification Number (EIN), 39-0482000.
